

PURPOSE: *To define the basic quality requirements for the suppliers of materials and/or services to SelectTech. Unless otherwise stated on specific purchase orders, drawings, statements of work, specifications, etc., these requirements apply.*

1. SUPPLIER'S QUALITY MANAGEMENT SYSTEM

The materials and services processed by the Supplier must be controlled by a documented quality management system that conforms to ISO 9001 or AS9100, as appropriate, or by a documented quality management system acceptable to SelectTech.

2. RIGHT OF ENTRY

SelectTech, SelectTech's customer(s), and statutory/ regulatory authorities have the right of entry to Supplier's facilities to determine and verify the quality of work and material. This right extends to the applicable areas of all facilities at any level of the supply chain involved in the order and to all applicable records. Such investigations at facilities will be performed jointly by SelectTech, the SelectTech customer, statutory/ regulatory authorities, and the subcontractor as applicable.

3. CALIBRATION, TOOLING, AND EQUIPMENT

Measuring and testing equipment used in the performance of this order shall be calibrated in accordance with ANSI/NCSL Z540-1 or ISO/IEC 17025. The Supplier is responsible for the protection, calibration, maintenance, and care (other than normal wear) of all tooling and equipment owned by SelectTech. Such tooling or equipment shall be subject to surveillance inspection upon notice and shall be returned in an acceptable condition upon demand or notice.

4. CERTIFICATE OF COMPLIANCE

Certification is required with each shipment unless otherwise specified. The certificate must contain a signature of a duly authorized Quality Assurance representative of the Supplier and will read substantially as follows: Materials and processes, including special processes, used to produce the item(s), components, parts, described on the Purchase Order conform to all Purchase Order requirements, referenced specifications or special requirements. It must include serial numbers, lot codes and date codes, as applicable. It must also list all Special Processes used in the manufacture of delivered items. The Supplier shall identify each individual unit/item supplied to SelectTech with a serial or lot number as applicable, traceable to the original source of the special process, parts, material or testing. These serial numbers shall be sequential and shall not be repeated.

If specified, the Supplier shall forward reports of mechanical properties and chemical composition to show evidence of conformance to all applicable specifications for all raw material used in fabrication of the ordered material. For all material used, the Supplier

must provide a certificate that reads substantially as follows: Raw materials used in this item conform to all applicable Purchase Order requirements and are traceable to test reports at the point of manufacture.

If specified, First Article Inspection shall be performed, and a First Article Inspection Report (FAIR) shall be submitted for the first production run. In addition, first article inspection shall be performed on current production runs affected by design changes.

If specified, inspection measurements and/or test results of items shall be taken and included with each purchase order shipment. Actual data to be recorded shall be specified in the detail specification/drawing. The Supplier shall assure that products failing to meet performance requirements are not shipped to SelectTech.

5. FOREIGN OBJECT DEBRIS/DAMAGE (FOD)

A FOD program shall be in place for the prevention, detection, and removal of foreign objects. A copy of the Supplier's FOD program shall be provided to SelectTech upon request.

6. SPECIAL PROCESSING

Special processing is defined as the manufacturing step or process where the end item or result cannot be physically or visually inspected post processing. Examples include but are not limited to plating, coatings, welding, brazing, etc. Any special processing step(s) must be identified on the Certificate of Compliance. SelectTech and the SelectTech customer have the right of entry to the subcontractor facilities to assess the special process(s) being used to manufacture the end item and to verify the quality of work and material.

Supplier shall maintain records verifying the special process and personnel are certified.

7. SUPPLIER FLOWDOWN REQUIREMENTS

The Supplier shall not outsource work from their facility to a sub tier without written approval from the SelectTech Purchasing Agent unless otherwise specified. These Supplier Quality Requirements shall be flowed down to the sub tier(s). Any SGAMF customer or end-user specified requirements must also be flowed down to any sub tier.

SelectTech reserves the right to require and request evidence of Supplier's ensuring that their personnel are aware of their contribution to product or service conformity; their contribution to product safety; the importance of ethical behavior.

8. COUNTERFEIT PARTS

Counterfeit or unapproved parts are not deliverable to SelectTech. The Supplier shall establish a prevention and detection of counterfeit parts program. A copy of the Supplier's prevention and detection of counterfeit parts program shall be provided to SelectTech upon request.

Unless otherwise approved in writing by SelectTech, the Supplier shall use only original equipment manufacturers or original component manufacturers (OEM/OCM) or an OEM/OCM Authorized/Franchised Dealer or Distributor. The Supplier shall verify all documents that provide chain of custody to the original manufacturer for each lot in a shipment.

All occurrences of counterfeit parts are to be reported, as appropriate, to internal organizations, customers, government reporting organizations such as:

- (a) Government-Industry Data Exchange Program (GIDEP) or other industry supported reporting programs;
- (b) If applicable, Customer Representative noting supplier, part number, and pertinent traceability information;
- (c) If applicable, Local, State, or Federal Regulatory (such as the FBI, Department of Commerce, etc.) agencies noting supplier, part number, and pertinent traceability information.

9. PACKING/PACKAGING

Unless otherwise specified on the drawing, the specification, and/or the purchase order, the following requirements are mandatory:

- (a) Prior to packaging, material shall be clean (free from foreign matter). Critical functioning or close tolerance surfaces shall be cleaned to insure removal of corrosion, soil, grease, residues and fingerprints, perspiration or other acid and alkali residues.
- (b) Material not inherently resistant to corrosion shall be inhibited with a suitable medium.
- (c) Material shall be packaged to the extent necessary to provide protection from the hazards of transport, contamination and physical damage encountered in general handling, shelf storage, and issue.

10. NONCONFORMING MATERIAL

Nonconforming material supplied must be processed in accordance with a documented system for the control, material review and disposition of nonconforming material. If, after shipment of product by Supplier to SelectTech, the Supplier identifies any actual or potential nonconformity of product supplied to SelectTech or to the processes used in the

manufacture of product supplied to SelectTech, the Supplier shall notify SelectTech in writing of any such nonconformity, what product or process was affected, and what corrective action was taken by Supplier to prevent recurrence.

The Supplier may rework nonconforming material (additional processing of material to make the material compliant with material / product specification and/or drawing). However, the Supplier shall not repair or use as-is nonconforming material without prior written authorization from SelectTech. The Supplier may submit, in writing, a request for waiver or deviation of specification requirements through SelectTech Purchasing when nonconforming material is believed to meet the intent of the design requirements but may have been repaired via a means other than that permitted within the specification or drawing.

Supplier shall respond in writing to a request for corrective action made by the Purchasing Agent and/or Quality Management. Corrective action shall be extended to all lower tier Suppliers. All articles rejected and subsequently resubmitted by the Supplier to the buyer shall bear adequate identification of such resubmission either on the articles themselves or on the Supplier's shipping document. Reference shall be made to the rejection document and evidence given that the causes for rejection have been corrected. If requested, the Supplier shall provide a complete failure analysis describing the actual cause of failure including the component failure mechanism.

11. DESIGN AND PROCESS CHANGE NOTIFICATION

When design or process control is the Supplier's responsibility, the Supplier shall not, without prior approval of SelectTech, make any change in process, materials or design details that would affect: (a) part number identification, (b) physical or functional interchangeability and (c) repair and overhaul procedures. Copies of the revised drawings shall be forwarded to SelectTech. SelectTech shall approve the change prior to implementation.

When the Supplier is manufacturing to SelectTech design, no departure from the process, drawing and/or specification shall be made unless specifically authorized. In the event the Supplier intends to make any process change or move manufacturing, processing or testing functions to a subcontractor or a new subcontractor, the Supplier will submit a transition plan and new subcontractor details to SelectTech for concurrence. SelectTech reserves the right to approve both the subcontractor and the transition plan.

For any End of Life (EOL) items, SelectTech is to be notified in advance and what, if any, replacement items are recommended.

12. SUPPLIER MANAGEMENT OF SELECTTECH PRODUCT DATA RECORDS

Supplier records shall be correctly indexed, legible and stored in a manner permitting easy access, retrieval and protection. Retention period for product data for SelectTech products is a minimum of ten (10) years or as otherwise defined. Suppliers shall have a documented system for records management and retention in accordance with their internal Quality Management System as well as any customer contractual flow down requirements.

13. ON-TIME DELIVERY REQUIREMENT

Deliveries will be considered on time if received by the due date per the PO. Supplier must notify the Purchasing Agent in writing of any potential late shipments prior to the due date. Corrective action may be requested depending on the impact to SelectTech's production schedule. Partial shipments may be accepted if agreed upon by the Purchasing Agent. A Supplier Performance rating report (a.k.a. scorecard) may be issued to designated suppliers. Corrective action may be requested and approval status may be impacted.

14. SHELF-LIFE

No materials shall be shipped to SelectTech with less than 80% of the full shelf-life as determined by the original manufacturer unless previously approved in writing by SelectTech. Expiration dates shall be clearly recorded on the packaging and shipping documents.

15. ELECTROSTATIC DISCHARGE

All electrostatic sensitive devices and components shall be marked, packaged, and handled in compliance with ANSI/ESD S20.20 Protection of Electrical and Electronic Parts, Assemblies, and Equipment, or equivalent.

16. PUBLICITY

Without prior written approval, Supplier and any subcontractors at any tier shall not release any publicity, advertisement, news release or denial or confirmation of same regarding any contract or purchase order to which it pertains. Supplier shall be responsible to SelectTech for any breach of such obligation by any subcontractor.

REVISION RECORD

Rev -	Original, 3-2-18, C. Scott
Rev A	Revised, 4-17-18, C. Scott
Rev B	Revised, 6-10-19, C. Scott
Rev C	Revised, 12-13-19, C. Scott
Rev D	Revised, 11-5-20, C. Scott
Rev E	Revised, 12-10-20, C. Scott
Rev F	Revised, 12-17-20, C. Scott Section 8 – Added paragraph detailing reporting requirements for counterfeit parts.
Rev G	Revised, 10-23-23, C. Scott Removed the SelectTech GeoSpatial and SelectTech Services Corp logos and replaced with the SelectTech logo; updated Sections 4, 6, and 8.
